FOREWORD

This year, Cardinal Dougherty High School celebrates the tenth anniversary of its foundation. The Class of '67 is fortunate to be graduating on such a memorable occasion. It is only natural, therefore, that the THEME OF SIGNET '67 be THE TENTH ANNIVERSARY.

We have tried to develop this theme consistently throughout the yearbook, beginning with the anniversary dates in relief on the cover, an appropriate dual dedication, and particularly in our divider pages which contain, within the numeral 10, several deliberately unidentified but representative photos of people or events taken from the past and pertaining to the sections they introduce. The contents of each section, however, feature actualities of the current year. Moreover, instead of the usual introductory pages highlighting events of the present year, we have opened our yearbook with a brief pictorial history of the significant facts of the decade. Since Mr. J. O. Phelan has already published an historical booklet describing the origins and development of our school, as well as the little-known history of the Eudist Fathers who founded and direct this institution, we have limited ourselves to the essentials in order to give adequate coverage to the faculty and students now attending the school.

Signet '67, in the Graduates Section, presents formal pictures and write-ups of two close friends on the one page with an informal picture of them in some characteristic pose on the other. As for the Underclassmen, we have departed from our customary individual portraits and, for the sake of variety, have presented them alphabetically in small groups. A brief write-up of each Teacher was so highly appreciated last year, that we have deemed it wise to include one again this year. All activities and sports have been described as well as possible. Finally, the Memories Section offers additional pictures of the past and present, in the manner of a final review of the various sections.

This Anniversary Edition required over one thousand hours of work. If it meets with your approval, we will not regret the time spent on its composition. The quality of the yearbook is the result of the generosity of our numerous patrons and of the student solicitors who worked so hard to contact them according to the praiseworthy financial drive organized by Father Chiasson and the Student Council. We are deeply indebted to all.

We wish, also, to express our profound gratitude to all the seniors and to the underclassmen who, in one way or another, have assisted us in realizing our ambitious project, namely, the presentation of a yearbook befitting the occasion of the tenth anniversary. No one, however, deserves greater acknowledgement for the countless and arduous days of work on this publication than our principal advisor. Father Townsend. Only those who have witnessed his persevering and meticulous work can truly appreciate the extent of his dedication to this annual senior project.

In conclusion, the Class of '67 join with the alumni students, faculty, parents, and friends of Cardinal Dougherty High School in congratulating the Eudist Fathers and their associates for the admitable work they have done in the past decade. May the second decade be even more glorious.

STRUGGLE and SUCCESS

CARDINAL DOUGHFR'TY HIGH SCHOOL under the direction of the EUDIST FATHERS began September 4, 1957, in five Jasstooms on the second floor of Assumption Elementary School located on Peter Street. The first seven months were here ones for the starf and the students awaiting the completion of the new school on St. Florian Street. Meving Div floring can; on March 21, 1958, filling the hearts of all with joy and enthusiasm. But a new building does not solve the countless and intricate problems of education as Father Lebane the first prinapil and his three successors fully realized Father Edward Cottreau, C.J.M. was appointed principal in 1951 and when he died suddenly in his office in September 12, 1961, was replaced by the Rev Armand Roussel, CTM., until 1963 when the actual principal Rev. Mircel Politics took over the helm Under the capable direction of these four princ pals the new school made such progress as to mer t ACCRI DITATION in May, 1964

LIBRARY

Though bursting at the seams but a few years after its inception, expansion of the school could not materialize until the tenth anniversary. A new library is underway with additional shelving space and seating capacity, a conference room, and greater facilities for research work. The present library was started in 1960 by Father Judson Roy. With the financial assistance of the Parents Clubs he was able to acquire approximately 4000 volumes. His successor, Father James Burson undertook the task of strengthening several needy areas while increasing the number of volumes to over 5000 and to 70 magazines subscriptions. The reference room collection, in particular, was remarkably improved by the introduction of the latest encyclopedias, reviews, and other research material. He also installed perhaps the finest audio-visual facilities of any diocesan high school. Courses in library science, an active staff, displays, paperback sales, have promoted reading and a better use of the library.

DEBATE HIGHLIGHTS

Cardinal Dougherty first entered a debate team in the Diocesan League in January 1961. The following sear we won the Diocesan Championship, and James Rolls, Robert Zimmerman, Thomas Sist and James DeSantis represented the Diocese of Buffalo at the National Finals of the C.F.L. held in Miami, Florida

In 1963 the Dougherty Debaters qualified for the National Finals held in Pittsburgh where Theodore Beringer, James Rymarczyk, David George and Thomas Faber represented the diocese

The next year we became members of three leagues: the National Catholic Forensic League, the National League, and the New York State League. As a result of the regional tournament in the N.Y.L., Michael Styn, Joseph Diebold, Daniel Schuder and David George qualified for the finals held in Albany, N.Y.

In 1964-1965 we again won the Diocesan Championship and had the honor to represent the Buffalo Diocese in New York City, with Ted Beringer, Jim Rymarczyk, Mike Styn and Dave Kenziora competing.

We have been less fortunate in the past two years, having to build anew with Freshmen and Sophomores. But these youngsters show great promise for the future, and our goal again this year is to qualify for the National Finals in Atlantic City

THE GLORIOUS YEAR 1963

DOUGHERTY DEFEATS TIMON IN TITLE GAME

Forever memorable in the annals of the first decade is the year the Doueherty basketball team defeated Bishop Timon to win its first Manhatten Cap Clamp onship by storming to a 60-48 victory in the Buffalo Memorial Auditorium before 5000 spectators the largest attendance in the 16 year history of the Manhatten Cap timals. Tom Grittin in his third year as Dougherty cape a such had moulded a we balanced and sharp-shooting squad. And what did the champs want as a reward? Why, another basketball game of course. They traveled by basic Workester Mass to play St. John's Prep School in a post-season contest.

DATA PROCESSING REPLACES INDUSTRIAL ARTS

Without intending to minimize the value of courses in the Industrial Arts, it must be admitted that this was hardly a suitable preparation for the future of our students in the business world. It would undoubtedly have its place in the curriculum of a vocational school, but not at Cardinal Dougherty

Father Pointer had the foresight to replace this course by a complete curriculum in the dynamic field of Data Processing which will offer security and tremendous opportunity for an ambitious future in the field of business

Cardinal Dougherty became the only High School in Western New York to have a complete curriculum in Data Processing with full equipment: 6 Key punchers, 2 Sorters, 1 Verifier, 1 Reproducer, 1 Collator, and the Univac 1004 Computer.

Some of the benefits for the students are as follows A graduate having followed a complete course in Data Processing, with not only hardware knowledge, but a comprehensive course of study including a flow-charting, systems designs, as well as having a thorough knowledge of the various business applications, could better qualify as a) Jr. machine operator; b) Jr. systems analyst; c) Jr. computer programmer; d) General office clerk

Because of the rapid growth and need of Data Processing in industry the opportunities for advancement are greatly enhanced. It also is an excellent enrichment course for those planning further study in the fields of Engineering, Science, and Mathematics which utilize computers extensively.

" . into each life some rain must fall . "

But Greg Dudek and Diane Plech don't seem to be too concerned about this on their way to the senior prom. We have dug up a few photos of the past decade to help the alumni to reminisce a bit as we indicate a few of the important facts of our history. In a sense the joy of graduation is always tempered with a little sorrow on leaving behind close triends and dedicated teachers. But the solid educational background acquired by approximately eight hundred graduates from Cardinal Dougherty during the past seven years is reason enough to face the future and the problems of life with confidence. The first decade had its rainy days, but the success all eved made it all worthwhile, and we can smilingly open the door to the second decade with the contidence that Cardinal Dougherty and its students will attain even greater heights in the pursuit of education.

"The ability to defend one's own position with spirit and conviction, to evaluate accurately the conflicting opinions of others, and to retain one's confidence in the ultimate power of truth to carry its own weight, are necessary talents in any society, but especially so in our democratic world!"

Msgr. J. P. Shannon.

Cardinal Dougherty High School has been extremely active in Debate and Oratory for the past six years. Under the able direction of the Rev. Patrick J. Ruddle, our debaters won the diocesan championship twice, qualified for the C.F.L. National finals three times and for the N. Y. State League Finals once. In oratory we also qualified for the NCF.L. finals in Pittsburgh. The outstanding debaters this year are Freshmen and Sophomores.

ATHLETIC DIRECTOR

TIMOTHY McLAREN

scores 29 points for the Faculty win over the KB YO-YO's

As the new Athletic Director of Cardinal Dougherty High School he has established an even more impressive record by doing a truly "man-size" job in this department. Besides the numerous responsibilities of an AD in the various interscholastic sports, he has organized an intramural sports program unparalleled in the annals of this school

He began with the Cardinal Football League in the fall comprising 16 teams, 220 players, and 75 games. The Packers won the championship

Immediately afterwards came the PING PONG LEAGUE with 30 players in 210 games. Tom Barone received the coveted trophy for this tournament

With the end of the interscholastic basketball league, Mr McLaren launched his own intramural basketball league forming 32 teams with 240 players participating in 110 garnes

Though our Varsity Basketball players were eliminated from the play-offs, they still can be proud of the beautiful and expensive uniforms they wore that Mr. Mc Laren had purchased. He has also ordered new baseball and football uniforms

We have been most fortunate in the choice of our new Athletic Director and wish him continued success

OUTSTANDING DEBATERS

Thomas Regan, Gerald Kukla, Jeffrey Osinski, Anthony Panebianco FRESHMEN WIN THREE DEBATE TROPHIES IN ANNUAL TOURNAMENT

The underclassmen have always contributed generously to the success of the annual patron drive which enables the seniors to publish an expensive yearbook. This year has been no exception, and we wish to note and remember this whenever we proudly turn the pages of our beautiful souvenir book.

We are happy, therefore, to have an exceptional opportunity to dedicate a page of our memories' section to a group of freshmen and sophomores who have honored our school this year by winning several trophies in tournaments against a large number of teams from other schools. What we have failed to do in athletic contests, they have achieved in the academic field. We are justifiably proud of our young debaters.

"Contest debating", as we have it in our schools, is an intellectual crossing of swords between opposing teams, one prepared to defend and prove a proposition, the other to combat and dis-prove it. In a sense it is much like a game of baseball. Opposing teams clash on the field of facts and ideas. Their technique is the batting of arguments back and forth, which requires as much agility and ability as baseball or any other sport. And it is an invaluable aid in training for a future career. Debaters are usually heard from in business and other professions; they become leaders because their participation in debates teaches them to think logically on their feet and to express themselves forcefully and convincingly. Our best debaters this year have been the underclassmen. Congratulations and more power to them.
